

COURSE DESCRIPTION

Course: On-line course on “Porting Process Guidelines and Regulations on MNP” by ITU-ASP CoE Network-PTA Node

Dates: 2 June to 11 July 2008

Registration: Closing date: 16 May 2008

Target Population

This course has been planned for the policy makers, regulators and mobile operators, interested in human resources capacity building regarding planning and implementation of MNP regime in their countries. The course will be particularly useful for officials dealing with the MNP planning and implementation process as this highly specialized program has been structured by experts with practical experience of the subject.

General objectives

- Provide, in an interactive way, the fundamentals of formulating porting process guidelines and regulations for effective and efficient implementation and operational support of MNP.
- Present a contemporary perspective on key issues for porting process and regulatory issues.
- Highlight the issues in formulating porting process guidelines and regulations for the facilitation of the subscribers.
- Define the porting process and regulatory framework approach.
- Share practical experience through e-learning.

Test

To evaluate the assimilation of the participants, Quizzes will be set for the 3rd and 6th week.

Methodology

One module will be studied and discussed each week. Course material will be made available on a weekly basis. A discussion forum on the subject of the week will be organised. Chat Sessions will be held twice a week. These forums are essential part of the course, therefore, the participants are expected to contribute actively in the discussions as well as the Chat Sessions. Assignments will also be given on a weekly basis.

Requirements for Participation

We request that your Organisation takes the firm commitment to provide the nominated participant(s) with the necessary time (approximately 8-10 hours per week) and resources (access to the Internet and related facilities), so that the participants can follow the course appropriately from the beginning to the end. During the course, participants are required to check their mailboxes for new messages at least every two days. The availability of Internet Electronic Mail and Internet is necessary to participate in the course.

Target Population

This course is intended for regulators, mobile operators, decision makers in the field of policy and regulation. The participants are required to read and write English fluently, and should be able to send and receive email messages on the Internet and to access WWW information, preferably with MS-Internet Explorer 4.0 or Netscape 4.0 or higher; a speed of 28.8 kbps will be sufficient.

Tutor

The course will be tutored by Mr. Muhammad Talib, Director (Engineering), Pakistan Telecommunication Authority (PTA) assisted by Mr. Ali Faisal, Assistant Director (International Liaison), PTA.

Course Coordination

The course will be run under the general supervision of Ms. Tensin Tobgyl (tensin.tobgyl@itu.int). The ITU e-Learning Centre will be administered by Mr. Boris Williams (elarningteam@itu.int). The administrator will be responsible for the correct functioning of the required infrastructure of the course (hardware, software and communications). Mr. Muhammad Younis (younis_pak@pta.gov.pk, Fax:+92 51 2878114 and Cell No.+92-304-5100475) will be the course coordinator.

Participation fees

ITU-ASP-CoE Network - PTA Node is offering this course **free of charge**. However, the participants will have to cover their own Internet access costs for participation.

Registration

Applications for this course should be made following the instructions under the electronic address <http://www.itu.int/itu-d/hrd/elarning/> selecting the title of the course **before 16 May 2008**. The Administrator will confirm the acceptance of the candidates and will supply you with the relevant instructions for participation. You can login as per following:
